## New Prescribing and Reporting Rules for Controlled Substances Coming January 1, 2021

Starting January 1, 2021, pads used to write and fill prescriptions for controlled substances are required to have a 12-character serial number, a corresponding barcode, and other security features required by Assembly Bill 149.

For more information on CURES and prescription pad requirements, visit the Board's CURES webpage.  
<https://www.mbc.ca.gov/Licensees/Prescribing/CURES/>

# Rx Pads

## Security Features

### AB-149 Compliant

**"Rx" Thermochromic Ink**

**"California Security Prescription" Watermark**

**Chemical Void Protection**

**Area of Opaque Writing**

**Latent "Void" Pattern**

**Serialization & Barcode**
